Mr. Mike Carlson, Graphics Division Lead:

1511 East 11th Street
Loveland, CO. 80537

Dear Mike,

I wanted to express my sincere thanks for all the assistance and cooperation you and your staff displayed during our chevron project test for the Colorado Department of Transportation. We believe safety is a value, a #1 priority, and that employee safety takes precedent over production.

Safety and visibility is why we chose to R & D your reflective graphics for our state fleet and maintenance equipment. Your product will enhance our safety efforts for our employees, and the public who travel our roads. We have had many positive comments already on the test vehicles that we applied the 3M Diamond Grade reflective chevrons too and hope to proceed with more vehicles in the future. The quality product, knowledge of your staff, and the professional design and application are the reasons we will continue our relationship with SVI Graphics.

Again, thank you from all of us that work for the Colorado Department of Transportation, who are now safer performing our jobs by the installation of your product.

Regards,

Rick Tenuta
